FOLLOW THESE STEPS WHEN APPLYING

Z TAGS ONE PIECE TAGS

Z TAGS™ DATAMARS

Flick the tagger pin out horizontally and hold your thumb down on the top arm of the tagger. This locks the tagger pin into position.

Gently slide the tag onto the tagger pin until you feel the tagger pin touch the end of the tag. Straighten the tag's surgical tip.

Push the rest of the tag onto the tagger pin.

Flick the tagger pin down vertically. Move the tag to the left or the right of the tagger, depending on which side the animal is being tagged, to ensure the tag is out of the way of the animal's head.
